Learning is the process of constantly updating in an ever changing world. Today the role of a school is not only to pursue academic excellence but also to empower its students to be lifelong learners. We try to provide the best possible environment for healthy development of young children by providing a carefully planned and structured environment in which the child grows and learns in a natural way.

It is a matter of pride that our students have come up with another edition of online magazine 'e-petalia'. This school magazine is a platform for the students to express their creative pursuit which develops in them originality of thought and perception. The contents of the magazine reflect the wonderful creativity of thoughts and imagination of young nawisters. I extend my warm wishes to student editors and teacher in charge to continue this journey on the road of excellence.

INVESTITURE CEREMONY
On 22nd April 2018 an appealing function was organized by grade 10-A to celebrate this occasion in the premises of our school. The theme for this year's Mother Earth day was “A world without plastic pollution”. The programme began with the sacred ceremony of reciting the Holy Quran followed by its translation. The students worked very hard and with great co-ordination and effort they put forward a very meaningful skit which inspired many students to change their habits to save their mother earth. The foundation pillar of our school Ms. Bushra appreciated the efforts and gave an inspiring speech. The function was concluded with the Saudi and Indian national anthem.

The main aim of these events were to sensitize the students about the value of our earth and the responsibility of each one of us as a citizen living on their huge planet earth.
Across the world, the English Language Day is celebrated on 23rd April. To mark the event several activities were organized to sensitize our students on the importance of the English language and to inculcate the habit of reading English books and magazines amongst our youth. In our educational program, the English Language place a fundamental role from the early ages.

Special assembly was conducted by class 8 and 12 girls and special programs was staged by class 12 girls based on Shakespeare’s famous dramas and famous soliloquies from King Lear, Romeo Juliet, Julius Caesar and Hamlet. Pride and Prejudice, which opens with one of the most famous sentences in English literature, is an ironic novel of manners. In it the empty-handed Mrs. Bennet has only one aim - that is finding a good match for each of her five daughters. In this she is mocked by her cynical and indolent husband. With its wits, its social precision and above all its irresistible heroine, Pride and Prejudice has proved one of the most enduringly popular novels in the English language.

NOW OR NEVER

- Shanila Ansari

Hold thy thoughts
All the forgone
All that yet to betide
Ye mighty humans
Behold mine beauty
In the present times
Whilst it is with thee
Thine is this moment
Aye ! Live me now !
Verily, I ain’t deathless
Indeed I’m knave
For I offer no troth
Tween the rise and set
The billow and its remit
The bloom and the fade
Such is mine course
Nathelss I shall avaunt
None shall know
Such is mine wizardry
So seek me now I am here
Once gone is gone
Never shall I return
Forsake everything y’all
Benefit and burden
The frets and frown
Aye ! Just live me!
Once and for all
THE PHOENIX IN ME

- Abeer Ashraf

The broken pieces never struck again,
They scattered everywhere being unknown.
The colour of my eye was the same,
Or was it the reflection that was in claim?
Could I explain it in any way?
Not what you understood by the way!
But you must realize it at least now,
Surely you will regret for it in vow....
Because little did you know,
As you left me for what I am now!
You killed me once,
Now am reborn with the power of a Phoenix,
Where I rise from my own darkest ashes!
IF THIS WAS SO, WHAT WOULD THAT BE

-Abeer Ashraf

They said that life was a test,
A test that you wouldn’t know!
A test you don’t realize that you are writing....
A test where you don’t know how
You are attending!
The test that determines your after life
The life where you were born to die and go!
The life you will live but never die!
The result of the test that sends you to your after life
Well, It will depend on how you have done it of course!
But how will anyone know how they have done their test at all?
And if they have cried this much in this Test of mere realization ....,
How much will they cry when they get the RESULTS!
There She Flies

- Rabia Fatima

They say feminism includes all genders
But when she’s born why do you kill her?
They say judging is locked in doors,
Then why do you judge her by her clothes?
She remains the “least” in the human beings,
Neither they care about her feelings.
Is this Humanity?
They only notice her tears
Not what she has gone through in the past years.
One day when she stands for herself,
She will teach the world to “love yourself”.
After all her nights went in tears,
She decided to kill all of her fears.
All left in her was positivity and hope.
TIME OUT
—TAMIM BAYAZEED

All the wounds that painted
Are gone forever,
All the sadness that painted
Are gone forever,
Although I suffered
It’s gone forever,
Those roads in the woods
Can’t stop me,
The confusion of choosing
Is gone,
Although the woods laughed
It’s gone forever
The time that pulled me down,
Has just passed away,
The times for living is on the way
Although I suffered a lot
It’s gone forever
The happiest people on the earth are those who have the most interesting thoughts. Everyone wants success but do all of them get it? NO, it is because of nebulous ideas and unformulated thoughts. What most great minds achieved is not through the natural flair or God given power. In fact, it depends all upon the efforts and capitalization of drawbacks. Soak and saturate your minds with interesting ideas, clear goals and of course, unsustainable optimism. Success demand sacrifice and hard work, which everyone can afford. One’s attitude decides the way one rules the world. You can always fashion our way if you work diligently, have a strong motivation, keep a cheerful disposition no matter how tough the going is, and have unfathomable faith in yourself.

You can succeed in anything if you are ready to put your heart and soul into it. Success does not come through tricks or good fortune, fortune favours only brave. Work is the beginning and the end is success. Never mind how you were ‘yesterday’ or how you are going to be in the future. Work ‘Today’, work ‘Everyday’ and you will find a way to the top. No matter how rough and bumpy the road is, in the end you get that feeling of accomplishment, you will just get one thought.

“It was totally worth it”

—TAMIM BAYAZEED
"Wake up Rahul quickly and dress up fast!" said mother bursting into Rahul's room, "Also do not forget to pack your hiking bag!" "Ok Ma!" answered the twelve year old boy. It was the day when he was going for a nature hike. He and his parents had been planning for this day for a long time, Rahul got out of the bed, had a bath, brushed his teeth, packed his bag with whatever he needed and rushed downstairs. He was just in time for breakfast. Rahul asked excitedly "What is the menu today?" "noodles and nuggets," replied his father. As soon as they finished breakfast, they packed a bag full of food items and other necessary things. It was 10 a.m. when Rahul and his parents got into the car.

After a drive of around four hours, they finally arrived at the foot of a hillside. "let us have our lunch before we do anything else. I am famished!" suggested dad. So they ate their lunch hurriedly. Let them cleared a small area and put up their tents. It was dusk time already. Mom lit a small campfire and roasted chicken. After dinner they went to sleep. Sometimes around midnight Rahul woke up to some strange noises. He was alert. Few minutes later, he heard the same sound again. This time Rahul saw a shadow and something leaning. He was terrified, yet curious. Quickly he grabbed a flashlight and shone it on an object. He chuckled at what he saw. It was just a small cat! He took some cookies from his bag and offered it to the cat. After finishing the cookies, the visitor gave Rahul a thankful look and went away. The next morning, Rahul's father led them up the hill. As they got higher the rocks were steeper and slippery. The climb was tiring, but the moment they got on top, they realized that it was worth. The view was magnificent. After taking pictures in various poses, they returned to their tents. Bodies ached, but heart was filled with joy. This was an amazing trip.
